NEXT MEETING DATES, TIMES AND LOCATIONS

The November meeting will be held on Saturday, November 18 at 1:00 p.m. The meeting will be at the Wausau Downtown FBO.

WHAT OUR MEMBERS ARE UP TO

A group of Chapter 640 members were able to take advantage of one of the last good-weather days of Fall to fly out to Friar Tuck's in Oshkosh. A nice lunch was had by all.

Congratulations to the 640's newest pilot, Dyer Kimm! Dyer has been training at the Merrill Airport for his private pilot license and plans to continue on and earn commercial ratings.

The EAA Chapter video featuring 640 and Learn Build Fly is now available for public viewing. This video was very well done and highlights the efforts of our group in engaging youth and others in aviation. Check it out at <http://www.eavideo.org/> - search for the September Chapter video.

The Southeast Side Neighborhood Park project is now nearly complete! The centerpiece A7 Corsair is in place and the majority of the playground equipment is also set up. Another neat feature for kids are the working 'runway' lights on the educational paths - if you are driving by the airport at night, be sure to check them out!

LEARN BUILD FLY BUILD UPDATE

The Tuesday night group has made steady progress on the project wings, with both nearing completion with varnishing. Both are soon to be ready for covering which will take place on another night at Dave Conrad's. The fuselage group has also been busy, working on the firewall area and getting the frame measured and drawn up to be entered into AutoCAD.

On the hangar project front, it is full steam ahead! Grading and site prep has begun by Merrill Sand and Gravel and the group hopes to have the building work start soon.
